Commentary

1 In search of the Holy Grail – a further step in understanding metal hyperaccumulation?

Letters

4 How important is apoplastic zinc xylem loading in *Thlaspi caerulescens*?

Books

6 Mycelial activity • Natural product biosynthesis

Review

Tansley reviews

9 Biochemistry and molecular biology of the late-stage of biosynthesis of anthocyanin: lessons from *Perilla frutescens* as a model plant
K. Saito & M. Yamazaki

Research

25 Programmed cell death during rice leaf senescence is nonapoptotic
R.-H. Lee & S. C. G. Chen

33 Three genes showing distinct regulatory patterns encode the asparagine synthetase of sunflower (*Helianthus annuus*)
M. B. Herrera-Rodríguez, S. Carrasco-Ballesteros, J. M. Maldonado, M. Pineda, M. Aguilar & R. Pérez-Vicente

47 Do *Arabidopsis halleri* from nonmetallicolous populations accumulate zinc and cadmium more effectively than those from metallicolous populations?
V. Bert, I. Bonnin, P. Saumitou-Laprade, P. de Laguérie & D. Petit
• **Commentary p. 1**

59 Within and between population genetic variation for zinc accumulation in *Arabidopsis halleri*
M. R. Macnair
• **Commentary p. 1**

67 Limitations to CO_2 assimilation in ozone-exposed leaves of *Plantago major*
Y. Zheng, H. Shimizu & J. D. Barnes

79 Do morphological changes mediate plant responses to water stress? A steady-state experiment with two C_4 grasses
R. J. Fernández, M. Wang & J. F. Reynolds

89 Leaf absorption of mineral nutrients in carnivorous plants stimulates root nutrient uptake
L. Adamec

101 The large capacity for dark nitrate-assimilation in diatoms may overcome nitrate limitation of growth
D. R. Clark, K. J. Flynn & N. J. P. Owens

109 Modelling suggests that optimization of dark nitrogen-assimilation need not be a critical selective feature in phytoplankton
K. J. Flynn, D. R. Clark & N. J. P. Owens

121 Species of cyanolichens from *Pseudocyphellaria* with indistinguishable ITS sequences have different photobionts
T. C. Summerfield, D. J. Galloway & J. J. Eaton-Rye

131 Molecular diversity and phylogenetic affinities of symbiotic root-associated ascomycetes of the Helotiales in burnt and metal polluted habitats
T. Vrålstad, E. Myhre & T. Schumacher

149 Mycorrhizal mediated feedbacks influence net carbon gain and nutrient uptake in *Andropogon gerardii*
R. M. Miller, S. P. Miller, J. D. Jastrow & C. B. Rivetta

163 Arbuscular mycorrhizal fungi confer enhanced arsenate resistance on *Holcus lanatus*
C. Gonzales-Chavez, P. J. Harris, J. Dodd & A. A. Meharg

173 Arbuscular mycorrhizal fungi respond to the substrate pH of dtheir extraradical mycelium by altered growth and root colonization
I. M. van Aarle, P. A. Olsson & B. Söderström

183 Basal hymenomycetes belonging to the Sebacinaceae are ectomycorrhizal on temperate deciduous trees
M.-A. Selosse, R. Bauer & B. Moyersoen

Volume 155 Number 2 August 2002

CONTENTS

Forum

Commentary

197 VOCs – helping trees withstand global change?
• Carbon isotope composition of fossil leaves – revealing ecophysiological responses to past environmental change

Books

201 Plant population dynamics • Plant ecophysiology

Review

Research reviews

205 Emodin – a secondary metabolite with multiple ecological functions in higher plants
I. Izhaki

Research

219 Is differential phytochelatin production related to decreased arsenate influx in arsenate tolerant *Holcus lanatus*?
J. Hartley-Whitaker, C. Woods & A. A. Meharg

227 Linking photorespiration, monoterpenes and thermotolerance in *Quercus*
J. Peñuelas & J. Lluisà
• **Commentary p. 197**

239 Stem respiration increases in CO_2-enriched sweetgum trees
N. T. Edwards, T. J. Tschaplinski & R. J. Norby

249 Reproductive development of blackberry (*Rubus cuneifolius*) as influenced by ozone
A. H. Chappelka

257 Defoliation and site differences influence vegetative spread in grassland
G. T. Barthram, D. A. Elston, C. P. D. Birch & G. R. Bolton

265 Developmental shifts in watermelon growth and reproduction caused by the squash bug, *Anasa tristis*
M. Biernacki & J. Lovett-Doust

275 An oxidative burst of hydrogen peroxide during rehydration following desiccation in the moss *Atrichum androgynum*
N. Mayaba, F. Minibayeva & R. P. Beckett

285 Nitrogen uptake by the floating macrophyte *Lemna minor*
N. Cedergreen & T. V. Madsen

293 Morphogenetic modifications induced by *Pseudomonas fluorescens* A6RI and *Glomus mossae* BEG12 in the root system of tomato differ according to plant growth conditions
E. Gamalero, M. G. Mattinotti, A. Trotta, P. Lemanceau & G. Berta

301 Deriving a consistent $\delta^{13}C$ signature from tree canopy leaf material for palaeoclimatic reconstruction
C. S. M. Turney, J. E. Hunt & C. Burrows
• **Commentary p. 199**

313 Instructions to Authors

Volume 155 Number 3 September 2002

CONTENTS

Forum

Commentary

317 Leaf form and function – towards a radical new approach

Review

Tansley reviews

321 The costs of reproduction in plants
J. R. Obeso

Research reviews

349 Anthocyanins in vegetative tissues: a proposed unified function in photoprotection
W. J. Steyn, S. J. E. Wand, D. M. Holcroft & G. Jacobs

Research

363 Zincophilic root foraging in *Thlaspi caerulescens*
B. J. Haines

373 Subcellular NH_4^+ flux analysis in leaf segments of wheat (*Triticum aestivum*)
D. T. Britto, M. Y. Siddiqi, A. D. M. Glass & H. J. Kronzucker

381 Birch PR-10c is induced by factors causing oxidative stress but appears not to confer tolerance to these agents
K. M. Koistinen, V. H. Hassinen, P. A. M. Gynther, S. J. Lehesranta, S. I. Keinänen, H. I. Kokko, E. J. Oksanen, A. I. Tervahauta, S. Auriola & S. O. Kärenlampi

393 Hormone-like activities of humic substances in different forest ecosystems
D. Pizzeghello, G. Nicolini & S. Nardi

403 Leaves at low versus high rainfall: coordination of structure, lifespan and physiology
I. J. Wright & M. Westoby
• **Commentary p. 317**

417 Grass blades as tree rings: environmentally induced changes in the oxygen isotope ratio of cellulose along the length of grass blades
B. R. Helliker & J. R. Ehleringer

425 Reproductive strategies, relichenization and thallus development observed *in situ* in leaf-dwelling lichen communities
W. B. Sanders & R. Lücking

437 Responses to soils and a test for preadaptation to serpentine in *Phacelia dubia* (Hydrophyllaceae)
S. I. Taylor & F. Levy

449 Abiotic variables effect differential expression of latent infections in beech (*Fagus sylvatica*)
S. J. Hendry, L. Boddy & D. Lonsdale

461 Progression of geminivirus-induced transgene silencing is associated with transgene methylation
M. K. Rodman, N. S. Yadav & N. N. Artus

469 Arabinogalactan proteins are expressed at the symbiotic interface in root nodules of *Alnus* spp.
A. M. Berry, U. Rasmussen, K. Bateman, K. Huss-Danell, S. Lindwall & B. Bergman

481 Diversity of sterile root-associated fungi of two Mediterranean plants
M. Girlanda, S. Ghignone & A. M. Luppi

499 Morphological and molecular characterization of mycelia of some *Tuber* species in pure culture
M. Iotti, A. Amicucci, V. Stocchi & A. Zambonelli

507 Direct nitrogen and phosphorus limitation of arbuscular mycorrhizal fungi: a model and field test
K. K. Treseder & M. F. Allen

517 Survival of *Suillus pungens* and *Amanita francheti* ectomycorrhizal genets was rare or absent after a stand-replacing wildfire
T. Bruns, J. Tan, M. Bidartondo, T. Szaro & D. Redecker

525 *Calluna vulgaris* root cells show increased capacity for amino acid uptake when colonized with the mycorrhizal fungus *Hymenoscyphus* ericae
S. G. Sokolovski, A. A. Meharg & F. J. M. Maathuis
